Veer Savarkar Marg, Mahim, Mumbai - 400 016 (INDIA).

Dear Colleagues,

We, at P. D. Hinduja Hospital, have great pleasure in inviting you to be a part of the XIX Annual CME of the IAP-Indian Division on 8th & 9th October, 2016, entitled "Image guided biopsy interpretation: Lessons learned in practice".

Over the course of one and a half days, a team of experienced Clinicians, Radiologists and Pathologists will discuss their experiences and approach in dealing with the problems of a guided core of deep seated lesions in various organs.

Very often, these deep biopsies with limited tissue are diagnostic dilemmas which need to be optimally processed, judiciously utilised and skilfully navigated to yield meaningful diagnoses of value for management.

Problems encountered from FNA to DNA, their recognition, understanding and skilful approach will be deliberated upon.

Do register for this wonderful teaching-learning experience and interact with the experts.
