Diabetic Foot Workshop 2017

Introduction

Department of Foot surgery and Department of endocrinology are pleased to announce that The Diabetic Foot Workshop 2017 is scheduled on 5th of March 2017 from 08:00am to 04:00pm at P D Hinduja national hospital & Medical research centre, Mahim, Mumbai.

The management of diabetic foot is multidisciplinary which requires joint efforts from surgeons, orthopaedic surgeons, plastic surgeons and endocrinologists. The purpose of the workshop is to discuss various aspects of diabetic foot management and prevention of complications. All aspects of management from basics to recent advances will be covered by experts in respective fields followed by workshop mainly aimed at PG students in surgery, orthopaedics and endocrine faculty.
