

**Day 1 continued.....**

**Management of Failed Cushing’s Disease : Panel Discussion**

Moderator : M D Chadha

15:00 - 16:00 N S Shah, B K Misra, D S Bhandarkar

16:00 - 16:15 Tea break

**Case Capsules**

Moderator : P H Chauhan

16:15 - 17:00

---

**Day 2 January 16, 2005 (Sunday)**

**Endocrine Pancreatic Disorders**

Moderators : L S Bichile, S K Mathur

09:00 - 09:15 Approach to a patient with recurrent hypoglycaemia
N F Shah

09:15 - 09:30 Imaging for endocrine pancreatic tumours
B G Jankharia

09:30 - 09:45 Surgery for endocrine pancreatic tumours
S R Shah

09:45 - 10:15 Discussion

Moderators : N D Moulick, G B Daver

10:15 - 10:30 Approach to a patient with hypertension and adrenal mass
A I Ahluwalia

10:30 - 10:45 Adrenal incidentalomas
N Bhagwat

10:45 - 11:00 Laparoscopic adrenalectomy
D S Bhandarkar

11:00 - 11:30 Discussion

11:30 - 11:45 Tea Break

**Case Capsules**

Moderator : A N Katara

11:45 - 12:45

12:45 -13:00 Concluding remarks and vote of thanks

13:00 onwards Lunch
Dear Colleague,

It gives us pleasure in inviting you to the "Medical and Surgical Endocrinology Update" to be held at the P. D. Hinduja National Hospital on January 15-16, 2005.

In their day-to-day practice, clinicians from various disciplines are involved in management of patients with a variety of endocrinological disorders - some common and others uncommon. Over recent years, better understanding of the pathophysiology of these disorders, development of multitude of sophisticated investigational modalities as also improvements in surgical technique have allowed us to offer better care to these patients. Similarly, increasing utilization of minimal access surgery for dealing with many endocrine disorders has been an exciting advance.

It is often difficult for busy practitioners to keep abreast with the ever-expanding quantum of knowledge in the fields of medical and surgical endocrinology. With that in mind, the scientific content of this Update is aimed at providing Physicians, Endocrinologists as well as General Surgeons with knowledge related to issues of clinical relevance that they can integrate in their daily practice. This forum provides an excellent opportunity for all the participants to interact with experts from the field and share their experiences. The postgraduate students from various disciplines will also benefit from this Update.

We look forward to welcoming you at the Hinduja Hospital on 15th January and to your actively participating in this Update.

Manoj Chadha
Consultant Endocrinologist
